### 5. Ferro

Grade: as buyer's request

Origin: Ukrain

Standard : Iron Ore 62% FE

### OUR ADVANTAGES

- Worldwide suppliers of many sources allow us to give you a very competitive price. We can offer quantities from 100 MT to 5,000 MT each order. We aim to build a steady network of suppliers and buyers to work closely with our trusted sources. Our products conform to international trading standards, however, whenever necessary, we can also process certain separate quality standards, according to the specific needs of individual consumers.
- We locate in Korea and have been establishing a personal and transparent relationship with our suppliers. Our team will arrange all requirements for your consignment. Our manager will provide shipments on time and at a competitive rate. We will advise our clients with ample information regarding the shipment, which ensures the optimal service.
- We make certain that we know both our customers and suppliers well. We visit them and get to understand their individual requirements and desires. We travel thousands of miles every year meeting suppliers and customers at their works - always investigating and refining how the service we offer can be improved to meet their needs. We offer our suppliers a fully integrated service and we know our customers' individual needs to supply them with the materials that they need in the condition that they want.
